# THE GLASS HOUSE FIRE

Particulars of the Loss and the Insurance on the Buckeye.

WAS THE WORK OF AN INCENDIARY.

Good Work by the Department Appreciated by Mr. Seamon, the President-A Big Order Ready for Shipment Destroyed-Some of the Insurance had been Recently Cancelled.

Mr. A. D. Seamon, the president of the Buckeye glass works, at Martin's Ferry, was so well pleased with the great work of the volunteer fire department in saving the plant from total destruction by fire yesterday morning that he presented it with \$50.

Only a part of the works was burned, thanks to the firemen.

The loss is about \$28,000, and partial-

When the Iverticescen went to press yesterday morning the big frame building on the south side of Hanover street was enveloped in flames and the large brick was burning, and it seemed that no human efforts could save the re-mainder of the glass works, but the fire laddles worked for three long hours, with three and four streams playing on the flames, and saved everything except-the new trans was appeared to the property of the prothe new trame warehouse and packing room and the gutting of the brick ad-

the new traine warehouse and packing room and the gutting of the brick adjoining this.

The fire, which was of incendiary origin, started in the lower pertion of the southeast corner of the big frame building. For a time it appeared to be under control, but was burning flercely within, and the building was soon a mass of flames, lighting the skies. Most of the efforts were then turned to the brick next to it, and the greater portion of this was saved.

The frame was erected about five years ago at a cost of \$5,000. It measured 50 by 80 feet and was a splendid structure, three stories high.

The first floor was filled with plain and decorated lamps and lantern globes, emoty packages and nay. In the second was open stock ready for packing, and the third was filled with unpacked lamps, tumbers and lemonade sets and brass trimmings, such as collars, felt, etc., the entire building being well filled,

lamps, tumbers and lemonade sets and brass trimmings, such as collars, felt, etc., the entire building being well filled.

The brick adjoining is a three-story building. The first floor contained 500 packages of ware, the second loose lamps and the second lamps, vases and brass goods. The offices and sample rooms and vaults for nitre, soda, lime, lead, etc., are also in the building. The entire building and major part of the contents were drenched. An order for 100 barrels of gold banded ware was ready for shipment and was to have been shipped yesterday. An effort was made to get this order off on Thursday.

Mr. Seamon, the president and principal owner of the Buckeye, told the INTELLIGENCE last evening that he estimated the settiment of the se

cipal owner of the Buckeye, told the INTELLIGENCER last evening that he estimated the loss at between \$25,000 and \$30,000, with \$14,000 insurance on the two buildings and contents. Some of the insurance was recently withdrawn on account of the great cost. The Hartford, of Hartford, Conn., has \$4,000; the Columbia, \$2,000; the Sun, of London, Eng., \$2,000, and the German, of Freeport, Ill., \$1,450. Two or three other companies were also caught.
